

COLLEGE OF ENGINEERING & TECHNOLOGY

Department : Computer Engineering

Course : Computer Graphics

Course No. : CC416

TA : Eng. Omar Fayed Samir

Sheet II (Circle Drawing Algorithm)

Assignment

- 1) Draw the following *Circles* using the Mid-Point circle algorithm. Show all the steps necessary to perform the required calculations.

- | | | | |
|-------------|---|------------|------------------|
| a. Circle A | : | Radius : 4 | Center : (2, 3) |
| b. Circle B | : | Radius : 3 | Center : (-1, 5) |
| c. Circle C | : | Radius : 2 | Center : (2, 3) |

- 2) Calculate the points where the following 2 circles graphically intersect on the screen.

- | | | | |
|----------|---|--------------|-------------------|
| Circle A | : | Radius : 9 | Center : (30, 20) |
| Circle B | : | Radius : 8.5 | Center : (28, 22) |

Section Practice

- 1) Draw the following *Circles* using the Mid-Point circle algorithm. Show all the steps necessary to perform the required calculations.

- | | | | |
|-------------|---|-------------|-------------------|
| a. Circle A | : | Radius : 7 | Center : (3, 2) |
| b. Circle B | : | Radius: 2.5 | Center : (-1, -4) |

- 2) Calculate the points where the following 2 circles graphically intersect on the screen.

- | | | | |
|----------|---|------------|-------------------|
| Circle A | : | Radius : 8 | Center : (30, 20) |
| Circle B | : | Radius : 8 | Center : (34, 20) |
